Your Soul Profile

Your Soul Profile describes the qualities of the Soul, the gifts, and talents that the Soul has chosen to bring with it into this lifetime.

Your Soul Type

- **Positive Soul, one soul in the body.**

This is the way it is supposed to be.

Rays of the Soul

About the 9 Rays of the Soul

This system is based on the esoteric doctrine of 7 Rays of the Soul. After many years of pondering over this system, I had to modify it to adapt to my logical understanding. So, I formulated my own system of reference – the 9 Rays of the Soul.

The Rays are the energies that emanate from the Creator and sweep through the Universe in nine great 'vertical' streams (i.e. over all planes of existence). The Rays are like the rainbow colors emanating from the prism when it is subjected to the rays of the Sun. But the prism is one.

These nine types of energy produce the nine types of Souls. One can say, a Soul is born through a certain 'energy centre' of the Creator.

The Ray of the Soul remains constant from incarnation to incarnation.

The Soul decides on the Rays of its vehicles (mental, emotional and physical body) for each incarnation.

The Ray of the Mental Body determines the quality of thought. The Ray of the Emotional Body defines the types of the emotional response.

A personality is a combination of Rays.

There are no 'good' Rays and 'bad' Rays. The long-term agenda of the Soul is the mastery of the qualities of all the Rays in their highest manifestation.

An Overview of the Rays

- Ray 1 – A Founder. Leadership, entrepreneurship, will power.
- Ray 2 – Divine Love-Wisdom. Shadow leaders. Adapt ideas to the immediate needs of the people.
- Ray 3 – Divine Knowledge and Understanding. An abstract mind. Truth is very important to them.

- Ray 4 – The concrete mind. Ray 4 people are capable of translating abstract ideas into concrete knowledge through written or verbal expression.
- Ray 5 – Human Love. Harmony in human relationship. Sensitivity. Giving nature.
- Ray 6 – Stabilization, Discipline and Order. They have the ability to manifest unity in diversity, to build order in the apparent chaos.
- Ray 7 – Creation on the physical plane of existence. Skills to create something. Application of technology.
- Ray 8 – Instinctive Love, Basic Care. They are nurturing and supporting. They love to be there for others.
- Ray 9 – Stable, grounding, practical. They love nature, animals and the Earth.

Ray 5 – “The Heart Centre” – the Human Love is...

Soul’s ‘gender’

Actually, the Soul does not have a gender. However, if the Soul incarnated many incarnations as a female, it starts thinking about itself as a female, and vice versa.

- **Androgynous**

The Soul exhibits the qualities that belong both to male and female. The soul has achieved a balance of the gender energies.

It draws on strength of both types of energies – Divine Masculine and Divine Feminine.

Such people understand the other gender better and are able to find a compromise, if needed.

The Quotient of Light indicates how much Light the Soul has in it. Correspondingly, the Quotient of Darkness indicates the percentage of darkness the Soul has.

(My guides told me that these are two different scales and that is why they do not sum up to 100%.)

Damage / tears in the Golden Web

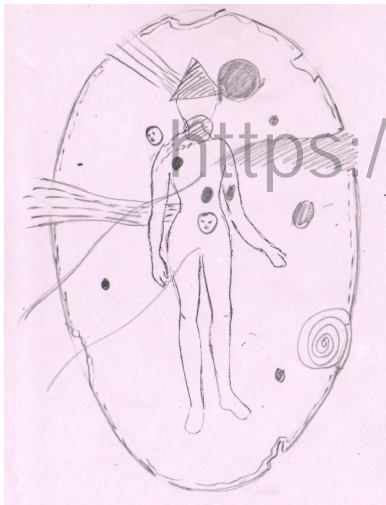

Figure 3 - An example of damages, negative energies, artefacts and attachments within the energy system

The Golden Web is the protective layer of the aura. Our negative choices can damage our Golden Web and create energy loss. Tears in the Golden Web also open our field to negative influences.

Non-material entities

Non-material entities are non-human beings that exist in the inner worlds. They do not have a physical body. There are many types, classes and species of entities; the most harmful ones are low-vibratory or negative entities. They intensify the existing negative character traits of their host, create physical diseases and drain energy.

- ■ (Average - 8)

Human Spirits

These are "dead" people that are stuck between the planes of existence for various reasons. Most often they are harmless, but some can be angry, depressed, or seeking something. They have known human vices. They drain energy, and may affect the person psychologically and physically.

- ■ (Average - 8)

Negative Cords

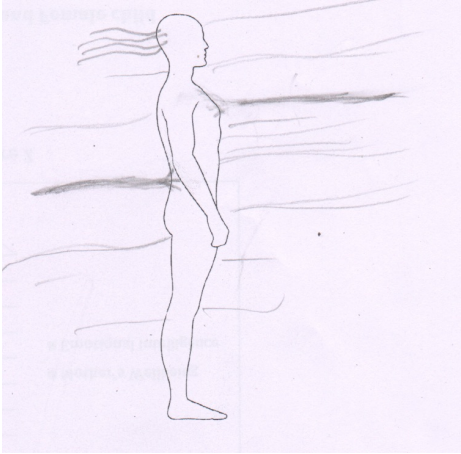

Figure 4 – A representation of negative energy cords attached to the energy body

Cords are common phenomena. The energy cords connect us to other people, beings, objects or events in our life. In this Soul Profile reading, we are only interested in detecting negative cords. All negative cords and attachments must be cleared because they drain out energy, contaminate our energy body, create vulnerability in the auric field, and allow us to be psychologically manipulated.
